

## Laboratory works for PUU-19.4010

### Chemical Characterisation of wood and paper products

Spring 2008

- (1) Reserve weeks 16-17 (14th-25th April) for the lab works. Full attention for the whole period is not required and the times when lab works will be performed are negotiable.
- (2) The laboratory works start on Monday 14th April at 13.00 in the main lobby of PUU II building. Everyone should be present. If you cannot attend, please mail me in advance.
- (3) You will be divided in groups of 3 persons. If you want, you can already decide the groups beforehand.
- (4) Each group will be given a sample and a task concerning that sample. Consequently, you have to build an analysis scheme and the lab works will commence the following day.
- (5) Following the lab works, each group will write a report. Instructions for writing the report will be placed on the website.

See you on Monday 14th April at 13.00.
